

Trusted, Caring And Comfortable Dentistry

We are proud to have served neighbors in our community for many years, providing professional, personalized one to one care. We use the latest techniques and technologies to promote your oral health and ensure a comfortable experience at every visit.

Here's why our practice may be perfect for you:

1. Whether it's a new patient appointment or an emergency, we can schedule you promptly. We stay on schedule – no waiting!
2. Our new patients feel at home and well cared for immediately.
3. All of our dentistry is cosmetic. It is the norm for us.
4. We treat you like we want our friends and family to be treated with individualized care and attention.
5. Continuing education is a top priority here.

When you visit our office, you'll find that we focus on you. We listen and respect your wishes and your treatment goals at all times. From routine cleanings to implants or restoring your smile, we are passionate about delivering gentle, quality general dentistry. We look forward to welcoming your family soon.

SMILING + YOGA = HEALTH

Yoga fosters strength and harmony in mind and body. It's all about maintaining equilibrium through breath control and poses.

Yoga is proven to:

- Increase flexibility & balance
- Build strength
- Alleviate chronic pain
- Improve respiration
- Relieve anxiety & depression.

It's no wonder that more than 20 million people practice yoga regularly!

Did you know that smiling has similar benefits? Smiling releases endorphins and serotonin that boost the immune system, relieving pain, reducing stress, and lowering blood pressure.

Let us give you the smile you deserve to keep those good feelings flowing!

75% Of Adults Have Gum Disease

Don't be so sure you're healthy

More than 75% of adults (ages 21+) have some form of gum disease yet only 51% floss every day. In addition to regular visits to the dentist, the beauty and longevity of your smile depends upon good daily hygiene. The encouraging news is that gum disease can almost always be prevented! Here's what you can do:

Brush Right: Brush your teeth for at least 2 minutes twice daily. Think of your mouth as having four quadrants and brush each for 30 seconds, divided equally between the inside, outside, and chewing surfaces.

Floss Daily: If you don't floss, you're missing 35% of your tooth surfaces. It's essential to floss every day to clean where your brush just can't reach.

Visit Us Regularly: Checkups and cleanings are a critical part of oral health care. Keeping a regular schedule will also help us catch problems early, before they develop into larger ones.

Gum disease has been linked to over 200 illnesses, including cancer, cardiovascular disease, osteoporosis, and rheumatoid arthritis.

Book your next professional cleaning with us today!

Dental Emergencies

WHAT YOU SHOULD DO

Lost Filling:

The area will be susceptible to further decay, so replacement asap is necessary.

Chipped Tooth:

Bring the piece to us. It's likely that we will be able to reattach it.

Toothache:

The pain may subside, but it won't go away. If left untreated, it will get worse 100% of the time. Call us as soon as you notice discomfort or pain.

Knocked-Out Tooth:

If it's a permanent tooth, gently place it back in its socket or into a glass of milk. The chances of saving the tooth are highest if treated by a dentist within the hour!

CALL US IMMEDIATELY

Boost Confidence & Career!

SMILE MAKEOVER: CROWNS & BRIDGES

As we mature in our careers, projecting confidence is essential to making a great impression and edging out the competition. New-client meetings, video conferences, and professional networking profiles put pressure on us to look our very best at all times. And if you're missing teeth, or living with broken, decayed, or misshapen teeth, now may be the time for a confidence-boosting smile makeover.

Enhance your look and make lasting impressions on the job and out on the town!

Crowns

A crown is used to cover an entire tooth, restoring and improving its natural shape, size, strength, color, and alignment.

Bridges

A bridge is used to support one or more replacement teeth by securing them in place.

Instantly look younger, healthier, and better groomed. It's never too late to make a change to look your best and feel great about yourself. Be your most-confident self at work and at play!

Crowns

BRING ON THE CRUNCH!

Apples and pears are packed with fiber and nutrients, and did you know that their crunch is good for your teeth? When fresh and crisp, fruit brushes away plaque, helping to fight cavities. So crunch away ... and enjoy them with this calcium-rich dip that promotes strong bones and teeth while delivering disease-fighting antioxidants!

Cinnamon Spice Dip

- 2 cups plain Greek yogurt
- 8 oz cream cheese
- 2 tbsp honey
- 1 tbsp vanilla extract
- ½ tsp cinnamon
- ¼ tsp each nutmeg & dry ginger

Mix until smooth. Thin with milk to adjust consistency. Serve with fresh fruit.

Meet Dr. Robert Hallman...

A native Atlantan, Dr. Hallman loves providing excellent dental care to your neighbors and wants to welcome you to our practice. Dr. Hallman and his wife have two beautiful daughters, two sons-in-law, and four young grandchildren. A captain in the U.S. Navy Reserve Dental Corp., Dr. Hallman has completed 22-years of active duty, after serving for two years in the Navy in Norfolk.

Dr. Hallman often calls patients at home after treatment to check in and see if they have any questions. When not in the office or following up with his patients, Dr. Hallman works with the *Habitat For Humanity* and *Atlanta Food Bank* programs, as well as the *Georgia Mission of Mercy*. He and his wife are active members in their church, *Peachtree Presbyterian*, where he is active in the *Seekers* bible study class.

Along with his enthusiastic team, Dr. Hallman is dedicated to educating his patients and working with them to attain healthy, functional and beautiful smiles. He hopes to welcome you to his practice to ensure your lifetime of optimal oral health.

YOU'RE INVITED TO CALL 404-647-4055

We Maximize Your Insurance Coverage!

- We go the extra mile to help you understand your insurance, and we submit claims on your behalf.
- We make every effort to provide you with the finest care and the most convenient options.
- We give you detailed explanations of your treatment plan, ensuring you have full understanding and comfort during your procedures.

Proudly serving Buckhead and surrounding areas

- Friendly caring team. Your comfort and excellent dental care are our top priorities.
- Expertise in all areas of dentistry, including preventive, restorative, cosmetic, and implants at one convenient and nearby location.
- Street level with wheelchair accessibility.
- Plenty of free parking.

★★★★★ "Friendly staff, professional service, attractive office and facilities. What more could you ask for? Plus the follow up call in the evening after being treated always reassures Dr. Hallman's concern for you and your family."
– *John L.*

★★★★★ "I have been a patient of Dr. Hallman since I moved to Atlanta 30 years ago. He and his staff have always offered excellent care. As a result of his excellent care, my visits to his office are mostly for maintenance. I have referred family and friends to Dr. Hallman."
– *Catherine B.*
